pleas were put into requisition, notwithstanding which double teams were required to second the hills along the routes, and then it was hard work.

THE GRAND JURY .- The Grand Jury organized at the commencement of the present term of the Court of Oyer and Terminer made their final presentment yesterday, and were discharged. They have disposed of n large amount of business, and it is intimated that among the indictments are several against prominent

ROBBING & BISHOP.—Yesterday afternoon a decently dressed, gentlemanly fellow called at the house of Bishop Loughlin, in Jay street, and desired to see his Reverence. The servant left him alone in the room, and when the Bishop arrived to give him actience he found the table-cloths, tapestry and all other loose articles, convenient for transportation, missing. The individual had left, and took everything he could conveniently carry.

The Common Council met last night as a Board of Canvassers and declared the result of the recent election in regard to Canvassers and Inspectors. To one who had received the highest number of votes were declared elected.

The Board then proceeded with the ordinary business.

The Special Committee on the subject reported in The Special Committee of the singlet reported favor of fixing the amount for constructing bridge over Gowanes Creek on the line of Hamilton avenue, at \$55.881.58. The report was laid upon the table.

Mr. Scholles offered a resolution to the effect that the care of the Truant School at Flatbush be transferred to the Board of Education. The subject was referred to the Truant Committee.

ferred to the Board of Education. The subject was referred to the Transt Committee.

Water Celebration.—A petition signed by a number of prominent citizens was presented, suggesting the propriety of making a suitable demonstration in commemoration of the introduction of water into the city, and recommending that a tasteful fountain be constructed in the City Hall Park.

Mr. McNames said that water would probably be introduced by the 25th of December, and moved that a Special Committee of Five be appointed to consider the propriety of celebrating the event.

The motion was carried, and Messrs. McNames, Green, Messrele, Taylor and Manjer were appointed and Committee.

NEW-JERSEY ITEMS.

AS ATTEMPT TO KILL- INFERSAL MACHINE, -On As Attempt to Kill-Ispersal Machine.—On Wednesday hight last, at about \$2 o'clock, at Gloucester City, N. J., an attempt was made upon the life of H. E. West, esq., Superintendent of the Washington Company's cotton mill. Some cowardly scoundrel had fastened a loaded pistol in a frame-wirk and hung it upon the gate-poet in front of Mr. West's residence, and so arranged it that the opening of the gate would fire off the pistol, with an aim at the heart of the person who might spring the trap. It so happened that two lacies, mether and daughter, passed in instead of Mr. West. The daughter stooped to push the gate open, and as it opened the pistol went off, the unit passing just across the back of her head, and lodging in the opposite post. The ball also passed immein the opposite post. The ball also passed imme-diately in front of the mother, and the powder flashed in her face and secrebed it. This is the fourth attempt of the kind, and as yet there is no clue to the perpetra-tor. Mr. West is a most estimable gentleman, and is universally respected.

PROBABLE FATAL ACCIDENT TO MR. SELAH HILL.—Mr. Sciah Hill, a Director, and one of the Building Committee of the Mechanics' and Traders' Bank, in course of erection at the corner of Montgomery and Hudson streets, Jersey City, met with an needent about 5 o'clock, which will undoubtedly result in his death. Jr. Hill attempted to walk across a plank on the second story, and he was precipitated upon a heap of stones and rubbish a distance of twe ty feet. He was taken to his residence in Bergen, where he is attended by Drs. Olcott and Luthers. Upon exheet. He was taken to ms resucce in begin, where he is attended by Drs. Olcott and Lukkus. Upon examination it was ascertained that his back was broken, and below that he is completely paralyzed. Mr. Hull was alive late yesterday afternoon, but it was thought he could not survive through the night.

BURGLARY.—The residence of Abraham S. Jewell, corner of Montgomers and Jersey streets, was burglariously entered desing Saturelay night, and robbed of a quantity of cilor spoons. The cilver ware, as is usual, had been taken up stairs. The theres proceeded up stairs, but Mr. Jewell was aroused by a noise, when the burglass escaped.

ROBRING A TILL.—Two young fellows, giving fictions names, were taken before the Recorder yesterday, for robbing the money drawer in Taylor's selects. They were committed for trial.

Supplex Death.—A servant girl named Louisu Schlegel, who had been but a short time in this country, died and-denly on Saturday, at No. 78 Washington affect, H. boxen, where she was employed. Coroner Bohnst of heid an inquest, when it was ascertained that death was caused by apoplexy.

THE REVOLUTION IN POLAND.

Last evening the twenty-eighth anniversary of the Polish Revolution of '30-'31 was celebrated at the uben House, Bowery, by the Liberals of Poland. Italy, France and Germany. Dr. L. SZPACZER presided. The room was decorated with embients of liberty, and the Polish Universal Republique and Arbeiter Bund flags were grouped at the head of the apartment. Dr. Strutve spoke in German, declating his conviction that ere long there would be a general revolution all over Europe, when the nationalities would be reconstructed upon a universal republican basis. Poles fought the battles of every nation; they would yet have an opportunity to dight their owe. The Doctor pitched into Despotism, Popery and aristocracy most vigorously.

Prof. Fuster of Vienna gave a history of the Polish Revolution and looked forward with unabated hope to the time when the people of Europe would by a unighty effort seeep away monarchies and establish. Liberte, Egalité, Fraternité." He was most vehemently applanced. sided. The room was decorated with emblems

applaused.

Dr. SZEACZEK read an address in Polish, to the effect that Peland must be revolutionized.

Mr. A. KAZENSKI read an address in French, pitching into Louis Napoleon for his treason to the Republic. The address wound up by stigmatizing him as the apolegist and uphelder of that intamous traffic, the

slave-trade—an occupation in keeping with the char-acter of the betrayer of Constitutional Liberty. The speaker longed for the "Republique Universelle," and the audience should their "Amen."

After a poke in German.

A French gentleman pitched into the Pope and Catholics generally on account of the abduction of the Jew boy, Mortara.

Mr. REINISAER and others followed in speeches suited to the occasion.

THE POLICE FORCE NOT TO BE PAID. - The Police Captains were notified yesterday, by Mr. Embree, the Chief Clerk of the Department, that, in consequence of the appropriation for 1858 having been expended, no money would be paid to the members of the force until February, 1859. This will be somewhat of a hardship on the men, as it includes the November salaries, which will be due on Wednesday next.

STRUCK .- A gang of men employed on two wrecking schooners near Governor's Island in raising the wreck of the steamer Knoxville, which was burned and sunk some time ago, struck yesterday and refused to allow any one to be put in their places. It appears that Capt. Bell, who superintended the work, owes them a small amount for wages and is unable to raise the amount immediately. A police force will be sent to the scene of war to-day.

MARRIED.

ARNETT-SCOTT-At Rossville, Scaten Island, on Saturday, Nov. 27, by the Rev. Jesse Pound, Mr. G. W. Arnett of California, to Miss Margaret Anna, daughter of Capt. Francis

forms, to Miss Marenet Anna, dangeler of valve Flances
Scott, formerly of this city,

There was a fair improvement in Stocks at the First Beard to-day, without decided setlvity; but later in the day the movements increased in volume and strength, and the business of the afternoon session was guite animated, at a material advance in several of the ending share securities. The arrival of upward of \$1,800,000 in California gold in the morning and the Bank statement in the afternoon, which was, upon the whole, more favorable than had been acticipated, were the encouraging items of the day. There was some irregularity in the dealings, however-most of the Western shares dragging rather heavily, and showing but slight improvement over Saturday's quo-tations. The most noticeable advance of the day was in Erie, which, from 16] in the morning, went up to 18 at the Second Board, and closed in fair demand at the price. The increased earnings for November, which are thus far reported at \$75,000 c \$80,000 in advance of 1887, is probably the cause of this improvement in the stock. New-York Central was less active than usual, and shows but slight variation from Saturday in the registered sales, but was in better demand after the Second Board, and sold up to | 58 for money. A fair Cetton market, and a dull one

824. Reading had a very steady though not active market, and advanced to 51 in closing eales in the afternoon. Hudson R ver was firm at from 53 3334. with modern e transactions. The Western shares with modern e transactions. The Western shares were generally rather heavy, and in the morning there was a slight decline in Rock Island, but this was partially recovered at the Second Board. Galena and Michigan Central were firm and a fraction higher in closing sales, but the business was not large in either. The transactions in Illinois Central were at 76 | 276 | during the day, the stock having settled down to tolerably steady points. In Michigan Southern shares there was a moderate improvement—the guaranteed advancing | P cent. but neither class of stock had particular atimation. In Pacific Mail shares the movement was quite spirited, and in the afternoon the quotation was up to 1041, an alvance of 1 \$\psi\$ cent over the closing bils of Saturday. The arrival of the Hermann at Panama, and her departure for San Francisco without making a conection with the Washington, is considered a favorable feature for the Mail Steam-hip Company, suggesting other circumstances throwing strong doubts upon the probability of reopening the Nicaragua route under the present arrangement. Panama was steady at quotations, but not active. The Bond movement of the day was not large, except in Illinois Centrals, which advanced to 91, and were in demand: the sales reaching an aggregate of \$48,000. State Stocks were firm, but the transactions were limited. The closing prices were: for New-York Central, 83 2 831; Erie, 17 | 218; Galena, 72 | 272]; Rock Island, 61 | 2 61]; Micuigan Central 52[@52]; Michigan Southern, 21[@21]; Guaranteed, 51[@51]; Hudson River, 33] #33}; Reading, 511 #51]; Illinois Central, 76] #762;

Missouri 6e, 895 290, &c.
The Foreign Exchange market is firmer, without much activity. Sterling is quoted at 1091 a 1091 for bankers bills, and 1084@1094 for commercial signatures. Francs at 5,20 a 5,16 l.

The business of the Sub-Treasury was: Receipts,

\$76,070 26; from Customs, \$75,000; Payments, \$174,588 48 ; California Drafts, \$12,000 ; Balance, \$6,688,568 10.

Freights to Liverpool, 50 tuns Oil Cake at 16s, 34. 10 casks Ashes at 15s.; 100 tes. Beef at 3s. To Londor, 50 casks Ashes at 25s.; 10 tuns Clover Seed at 25s.; 100 tes, Beef at 5s. To Bremen, 100 bales Cottonat ic.

The business of the Clearing-House to-day was

\$21,544,255 27. We have no variation of importance to note in the Money market. Albert II. Nicolay's regular auction sale of Bonds and Scocks will take place to-morrow, Tuesday, at 12; o'clock, at the Mercharis Exchange. The Coupons due September 1, 1857, and March 1, 1858, on the Bonds of the Cincinnati, Peru and Chicago Railroad Co., from No. 2 to 201, will be paid at the Corn Exchange Bank, on presentation. The interest Coupons on the Bonds of the Treverton Coal and Railroad Company, due on the 1-t of December, will be paid on that day at the Leather Manufacturers' Bank. The Illinois brings \$1,816,532

The Bark Statement, which we annex, is, upon the whole, more satisfactory than was generally expected. The specie column, notwithstanding the heavy shipments to the South during the week, shows an augment tation of \$566,916, and the loans a slight decrease. The net deposits have decreased \$1,211,720. The returns, as compared with those of the week ending

| November 20, are as follows: | Nov. 29, | Nov. 27, | Leans | \$123,566,632 | \$123,583,664 | Dec. \$37,003 | \$9pede | \$2,187,95 | \$27,187,291 | Inc. 206,916 | Chemistion | 7,866,576 | 7,652,457 | Dec. 201,421 | Deposits | \$67,943,128 | \$67,793,795 | Dec. 1,217,783 The movement of the Banks since Nov. 24, 1855, has been as follows:

The prominent features of the advices are a slight decline in Consols, which were quoted at 9719

for Breadstuffs. American Securities are reported dull, but no quotations are given. The San Francisco Price Current of the 5th itst.

"The same easy condition of financial affairs, which we have heretolere reported continues without any noticeable change. On the 20th uit, the country was visited with a heavy full of rain, which lasted about visited with a heavy full of rain, which lasted about thirty-six hours, occasioning a considerable rise in the mountain streams, and putting an end for the season to flaming operations. We are without any positive information as to the success that has attended this description of mining during the past Sammer, but conclude that the result has been mainly unfavorable. The mining ditches are reported as having been well supplied by the late rain. Miners depending upon this source for water have nothing to complain of now on that score, although their labors had been much obstructed by its previous low stage. From Frazer River the accounts are somewhat more encouraging; at least the amount of dust arriving from that quarter indicates that the remaining few of its newly acquired population are well employed.

indicates that the remaining few of its newly acquired population are well employed.

"A pre-forma decision has been rendered in the injurction suit against the further issue of city bonds, and the case has been appealed to the Supreme Court at Sacramento. State bonds are readily taken at our figures, according to the date of issue. A further decine has occurred in California Navigation stock, and the tendency is still downward. The Branch Mint in this city resumed operations on the 1st inst. Gold Bars are in request, with sales at the quotations given below. Mexican Doubloons are more inquired for, 1,250 sold a few days since at about 1; \$\tilde{\text{P}}\$ cent premium. The exports of specie from California for the month of October and the year were as follows:

of October and the year were as follows: Excess in favor of this year \$120,908 The value of exports other than specie, for the month

of October, was \$474,570. The receipts of wheat at Buffalo to the 33d inst., Os. wego 1st inst., and Ogdensburg to 13th inst., were as

The Trey Whig of Saturday, says: The Trey Whig of Saturday, says:

A decision was rendered on Thursday in the
Supreme Court of Vermont, of great interest to railrend men and of much practical importance in this
vicinity. It was in the case of Jonathan Sturgis and
Thomas Douglas, bondholders of the Western Vermont
Railroad, against the Trey and Boston Railroad leased
the Western Vermont Railroad of the bondholdess—a
tread tuning foun Repulsion to Railroad. The lease the Western Vermont Kailroad of the bondholdess—a road running from Bennington to Rutland. The lease was for ten years, unless a majority of the bondholders should give notice of its termination in one year—in which case it should then expire. Mesers, Sturgis and Douglas, two of the bondholders, residing in New-York City, old give this notice, and an injunction was precured from the Chancellor, restraining the defendants from using the road. The Troy and Boston Railroad appended to the highest Court in Vermont, which has given a decision in their favor, and doubtless put them in manediate possession of the road.

The Bay State Mills have issued a circular recommending a new plan for capitalizing the

The BAY STATE Mints—The "Committee of Creditors" of the Bay State Mills have issued a circular recommending a new plan for capitalizing the douts into the "Washington Mills," The total debts are \$2,400,600, or which \$1,500,000 are held by moravious, and \$200,000 by corporations, executors and guardians unable to take stock, or to whom such a course would involve unreasonable responsibilities. The holders of the \$4,500,000 are to become stockholders, and receive certificates on the relinquishment of their chains. The \$200,000 is to be constituted a five-years dobt, secured by an equal amount of the capital stock. If all the creditors subscribe, a dividend of 35 \(\text{ cent is to be made at once; if the subscription amounts to \$2,000,000 orly, a dividend of 25 \(\text{ cent in the original manustry to \$1,800,000 and no creditor is to have the right to rome in after Jan. I, 1850, except by permission of the Committee, and none is so come in, at any rate, after Jan. 15.

The Committee are of opinion that a public sale of the three mills, by means of which a large addition will be made to the active capital. Two of the Directors are to be nominated by the holders of the \$900,000 above mentioned. This \$900,000 is received its proportion of all the dividends puid, to the extent of \(\text{ Vect of all and the country states of the curior and the control of the cent \(\text{ annumer for the receivers.} \)

The committee and which a large addition will be made to the active capital. Two of the Directors are to be nominated by the holders of the \$900,000 above mentioned. This \$900,000 is solved to the extent of \(\text{ Vect of all and the cervity is the plan will receive their dividends poid, to the extent of \(\text{ Vect of all and the cervity is the plan will receive their dividends poid, to the extent of \(\text{ Vect of all and the cervity is the plan will receive their dividends from the receivers.

In regard to the Cumberland Ciry Bank bills, The Rolling of Directors and the control of the cent \(\text{

Baltimore Sun says:

"The parties who were redeeming these notes here are Mesers. Appleton & Co., and we hear that the reason of their declining longer to do so arises out of the protest of one or two drafts drawn upon a banking-house in New-York. The drafts, it is alleged, embraced an overdrawal. The holders of the notes are now referred by Appleton & Co. to the institution at Cumberland, they not having heard a refusal as yet to redeem at that point. The bank, it is said, has only a small circulation out—not exceeding \$20,000, and its assets are represented as sufficient to provide for it. Mr. Norton is the President of the institution, which it was designed to put into more calarged operation shortly. The present title of the bank, which has been a savings concern open, was given to it by act of the last Legislature." "The parties who were redeeming these notes here

THE WAUBERK BANK. To the Editor of The N. Y. Tribune.

Sin: Will you do me the justice to publish the fel-

lowing statement of facts in relation to the Wanbeek Table of the Luans, Spece, Circulation and Deposits of the Banks of the City of New York, for the week ending on Satur-Bank of Nebraska, in contradiction of an article which appeared in THE TRIBUNE of the 25th, which reflected credit on myself, and was not true, as I have the papers in my possession to prove. To give you a brief satement of the whole matter: The Wanbeek Bank was a legitimate institution, formed under the general law of Nebraska, and recognized by the people of that law of Nebraska, and recognized by the people of that Territory as such, and I became the principal owner. During the early Spring I was induced to come to this city and enter into an arrangement with a well-known broker in William street and a gentleman from Indiana, wherely I parted with two thirds of the Wanbeck Bank and the management of it. The said broker arranged with John Thompson to quote the bills at a discount of 2 P cent. It then became current in this city, Buffalo and at many points in the West. There was printed by the engravers \$220,000, \$410,000 of which was signed. During my absence from the city in the early part of July, the parties holding the two-thurd interest let the Bank fail (as I was told on my return to help save the McKean sing any absence which was a given. Danied by Absence heading the two-third interest let the Bank fall (as I was told on my refirm to help save the McKean County Bank, Penn. I then desired that the bills of the Waubeck Bank should be burned, and repeated the request on several different occasions, but was always put off with some excuse. The reason was that I was fearful of some bad use being made of them. I was very untell surprised when a friend informed me that some \$5,000 of this money had been put after in this city within the past few weeks. I requested my friend to call on one of the Judges of the Police Court and have an officer sent for what remained of the bills and have them burnt. The Judge sent a detective to me, and I gave him an order for the bills and all the information in regard to it that I was in possession of. The currency of the Waubeek Bank has been from the time the arrangement was made, under the exclusive care and control of this broker; and if any of these bills have been put in circuistion, it must have been with his knowledge and consent, or those in his employ. But were that fact known to the public, it would not place him in a very envisible position before the busitess community. Hence the statement that the bills were hypothecated with him. He contaction with a number of backs which I could position before the business community. Hence the statement that the bills were hypothecated with him. If comestion with a number of banks which I could name, all of which left a large amount of promises to pay in the hands of the public, together with other transactions, place him in a position which is not ecognized by all men as being strictly legitimate, it is not true that I left a dollar of this money on deposit with any broker, either in Wall, William or any other street. It is not true that the bank was a bogus concern. It is not true that I ever received the loan of a dollar on the bills of that or any other bank. It is not true that any broker in the City of New-York of a dellar on the bills of that or any other bank. It is not true that any broker in the City of New-York ever made an advance of one dellar to me on the bills of that bank. It is not true that the whole thing ex-ploded through the interference of the police, but died a natural death, without a struggle, at the town of

street broker. It was true, however, that I was President of the bank. The bills were taken by Officers Slowey and King from the said brokers office in William street. Your obedient servant, La Pierre neust, Nov. 27, 18-2. H. H. H.NE.

THE WESTFIELD BANK.

THE WESTPIKED BASK.

THE WESTPIKED BASK.

Sin: I notice that you speak of a recent counterfeit \$5 of this bank in your paper of Friday, "as calculated to deceive." It may deceive those who are not familiar with the true issues of the bank, but it is tetally unlike any of our bills. Our "five"-dillar bills have a view of the Park and surroundings on the north-west side, for figures on the left end of tine bill two men and three females), no figure "5" or word "five" on the right hand upper corner, no figures or designs on the right end, no man with grain, no two sailors; and, besides, it is signed Wm. G. Bates, and not W. G. Bates, and the plate is engraved not by the N. C. R. Note Co., but by Danforth, Bates & Co., New-York and Philadelphia.

One thing is peculiar to our issues. The 1s, 2s, 3s, and 3s have upon each a figure or figures corresponding with their denomination; the object being to guard sgaint a change of the denomination.

W. G. Bates, President.

Westfield Bask, Nov. 7, 1853. To the Editor of The N. Y. Tribune.

Westfield Bank, Nov. 27, 1858.

GUNNY BAGS AND CLOTH-The boson suppose suppose reports ealer of 65 bales large size Gunny Bags, the only lot in market, at 12c., less 3 P cent cash, in bond; I'm bales amail size at Re. dors paid, 15c dec., 57 B baverage, at 71c., in bond; 72 bales do. at 71c. in bond, and 285 bales, 40 to 410 fb average, at 3cc., part 6 mos, and rast less 4 P cent, in bond. Also, I'm bales Gunny Cloth, to arrive, 2.14 fb average, at 171c., less 4 P cent

think that it cash. We hear of sales of 3,300 Buenes Ayres, to arrive, at the control of the control of the cash of the control of the cash of the cas LIME-Sales to-day of 8,000 bbls. common Rockland at 70c.,

quality.
